AI CSV Report Generator

Automated Agentic AI Data Analysis Report

Dataset: ecommerce_orders.csv

Generated by: Agentic AI CSV Analysis System

This report contains automated dataset inspection, analysis, visualization and AI-generated insights.

Dataset Overview

Item	Value
rows	100
columns	7
column_names	Order_ID, Customer, Product, Quantity, Unit_Price, Total_Amount, Order_Status
missing_values	0
duplicate_rows	0
numeric_columns	Quantity, Unit_Price, Total_Amount
categorical_columns	Order_ID, Customer, Product, Order_Status
date_columns	Quantity, Unit_Price, Total_Amount

Data Cleaning

No information available.

Numerical Analysis

Column	Mean	Median	Min	Max	Std Dev	Outliers
Quantity	3.3000	3.0000	1.0000	5.0000	1.4460	0
Unit_Price	16965.0000	12000.0000	800.0000	60000.0000	20868.9822	0
Total_Amount	54207.0000	12000.0000	800.0000	300000.0000	78377.4089	12

Categorical Analysis

Column	Unique Values	Most Common	Count
Order_ID	100	ECO0001	1
Customer	20	Customer_15	11
Product	6	Mouse	20
Order_Status	4	Shipped	27

Correlation Analysis

Variable 1	Variable 2	Correlation
Unit_Price	Total_Amount	0.8670
Quantity	Total_Amount	0.2890
Quantity	Unit_Price	-0.0590

Time-Series Analysis

No suitable date column found.

AI Generated Report

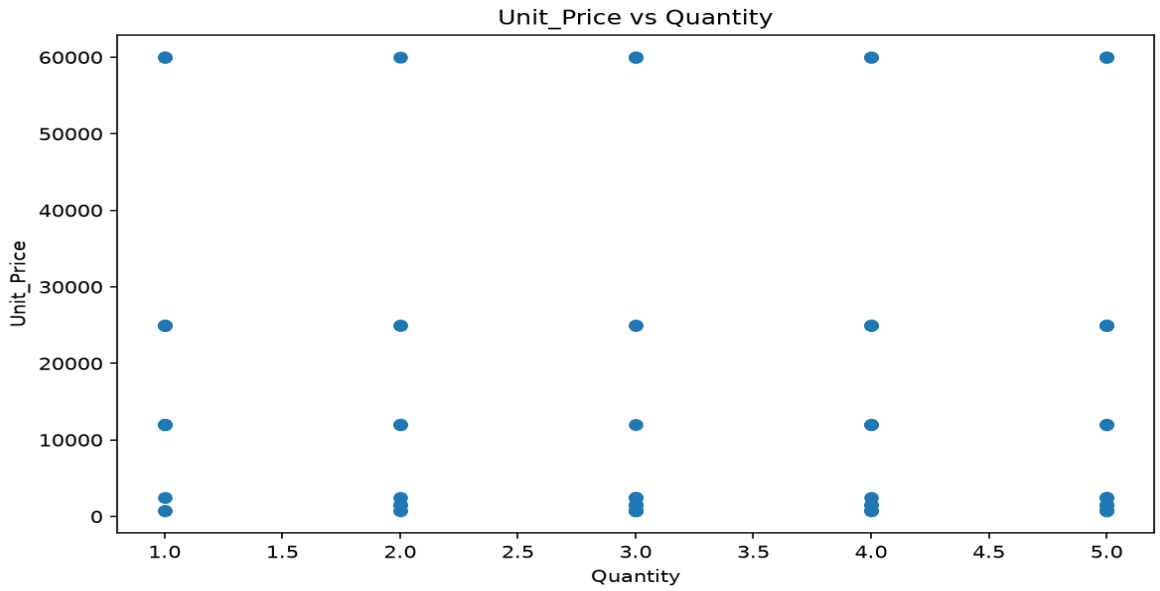

Error

AI report generation failed: Error code: 401 - {'error': {'message': 'Incorrect API key provided: sk-proj-**********WLMA. You can find your API key at https://platform.openai.com/account/api-keys.', 'type': 'invalid_request_error', 'code': 'invalid_api_key', 'param': None}, 'status': 401}

Generated Visualizations

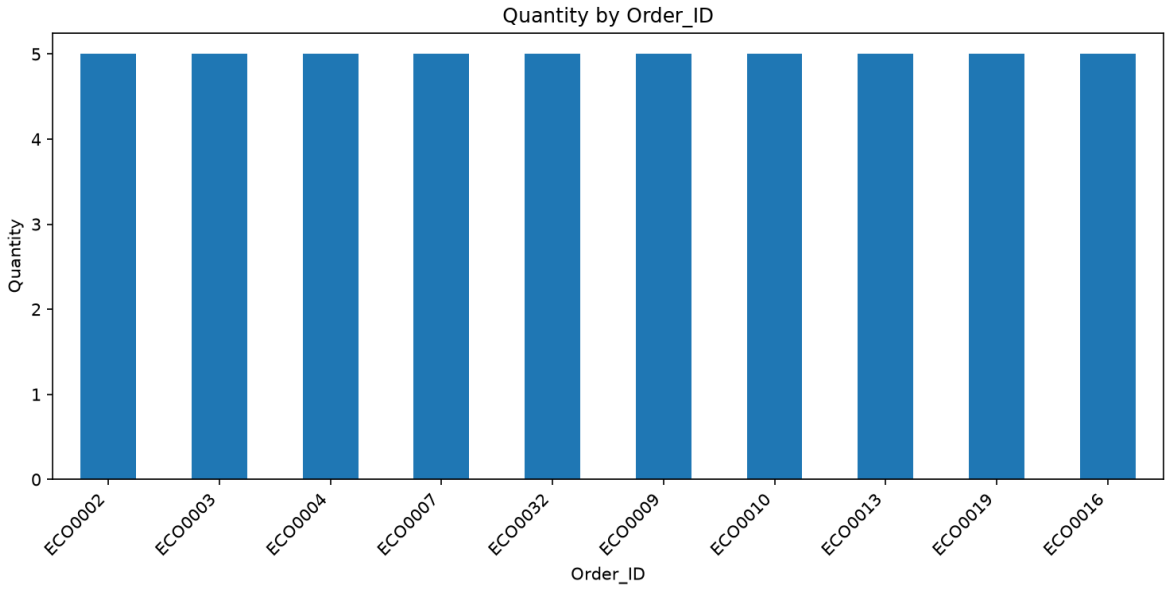

Scatter

Two numeric columns can be compared.

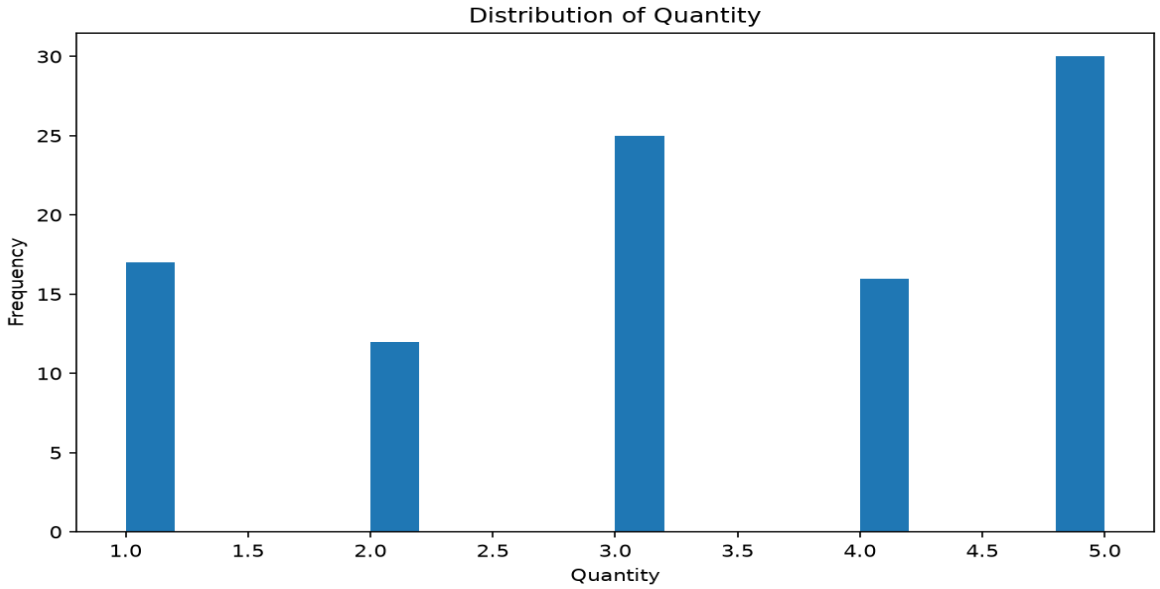

Bar

A categorical column and numeric column are available.

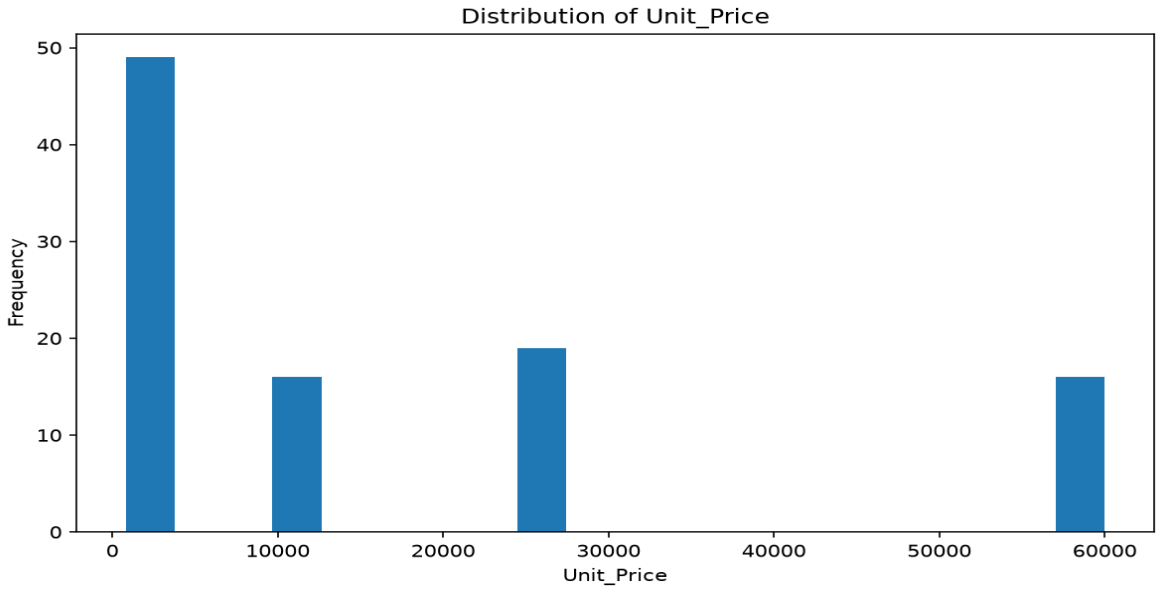

Histogram

A numeric column can show its distribution.

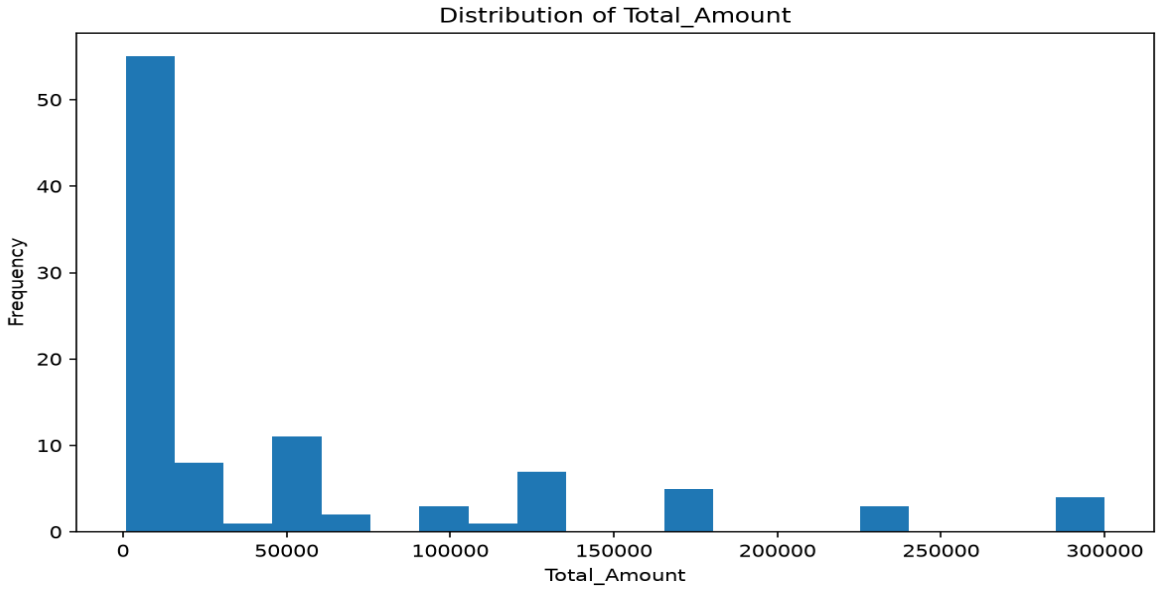

Histogram

A numeric column can show its distribution.

Histogram

A numeric column can show its distribution.

Heatmap

Multiple numeric columns allow correlation analysis.
